End Application:

Seawolf class

Maximum Operating Pressure:

3000.0 pounds per square inch

Product Name:

Manifold assembly

Special Features:

Material is for housing; length 22.5 in. Width 10.06 in; item is an assembly of 1ea p/n 21607-800-1 manifold housing and 15 various other parts from drawing 21607-400 to make up the assembly.

Material:

Aluminum alloy 6061

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A515e0
