Inside Diameter:

0.354 inches

Overall Width:

0.276 inches

End Application:

Hose

Fastening Device Type:

Ear clamped

Special Features:

Can be used on fluid power or low pressure air hose; closed-open measurement in inches is 0.354-0.433 and in millimeters is 9.0-11.0; size is 7/16 inches; material is stainless steel

Material:

Steel

Style Designator:

Band, 2 ears

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12700
