Body Material:

Nickel copper alloy

Operating Temperature Range:

Not rated

End Application:

R.O. Unit st, wsd: los angeles class ssn (688)

Orifice Diameter:

0.1015 inches

Design Type:

Straight

End Connection Type:

Any acceptable

End Connection Similarity:

Identical

Pressure Rating:

Not rated

Valve Size:

0.250 inches

Product Name:

Orifice ftg & snd attenuator

Special Features:

Consist of nut, pc no. 56a, nicu, qq-n-281, orifice, pc no. 11a, nicu, qq-n-281, and o-ring, rubber, mil-g-23652, type ii; 5100 psi wp max, length of orifice only is 0.250 inch.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T359-c
