**Body Material:**

Nickel copper alloy

**Operating Temperature Range:**

Not rated

**End Application:**

R.O. Unit st, wsd: los angeles class ssn (688)

**Orifice Diameter:**

0.0595 inches

**Design Type:**

Straight

**End Connection Type:**

Any acceptable

**End Connection Similarity:**

Identical

**Pressure Rating:**

Not rated

**Valve Size:**

0.250 inches

**Product Name:**

Orifice ftg & snd attenuator

**Special Features:**

Consist of nut, pc no. 56a, nicu, qq-n-281, orifice, pc no. 11a, nicu, qq-n-281, and o-ring, rubber, mil-g-23652, type ii; 5100 psi wp max, length of orifice only is 0.250 inch.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T359-c
