Body Material:

Nickel-copper alloy, qq-n-281, class a

Operating Temperature Range:

Not rated

End Application:

Reverse osmosis unit port; wsd los angeles classssn 688

Orifice Diameter:

0.0595 inches

Design Type:

Straight

End Connection Type:

Any acceptable

End Connection Similarity:

Identical

Pressure Rating:

Not rated

Product Name:

Orifice ftg & snd attenuator

Special Features:

Working pressure 5100 psi; assembly includes nut, nicu, qq-n-281, pc. No56a, 1pc.; orifice, nicu, qq-n-281, pc. No 11a; o-ring, rubber, mil-g-23652 type 11, 1pc.; 0.250 ips

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T359-c
