Body Material:

Nickel copper alloy

Overall Length:

78.250 inches

Diameter:

12.750 inches

End Application:

Ship

Design Type:

Straight

End Connection Similarity:

Identical

Criticality Code Justification:

Feat

Product Name:

Cascade orifice restrictive device

Special Features:

Weapon system essential; flanged end connection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T359-c
