End Application:

Strainer sgl 3.0 in. Brz 250 flge perf

Perforation Diameter:

0.0313 inches

Filtering Media Design:

Perforated all filtering media responses

Special Features:

Strainer size, 3.0 in. Pipe size; cl 250 lb. Flat face flange; body style inline flow - single screen; method of operation manua (handwheel)

Material:

Nickel alloy 400 screening

Material Specification:

Astm b148 c95800 assn standard 1st material response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
