End Application:
Strainer sgl 3.0 in. Brz 250 flge perf
Perforation Diameter:
0.0313 inches
Filtering Media Design:
Perforated all filtering media responses
Special Features:
Strainer size, 3.0 in. Pipe size; cl 250 lb. Flat face flange; body style inline flow - single screen; method of operation manua (handwheel)
Material:
Nickel alloy 400 screening
Material Specification:
Astm b148 c95800 assn standard 1st material response body
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Filg:
A24000
