**End Application:**

Strainer sgl 3.0 in. Brz 250 flge perf

**Perforation Diameter:**

0.0313 inches

**Filtering Media Design:**

Perforated all filtering media responses

**Special Features:**

Strainer size, 3.0 in. Pipe size; cl 250 lb. Flat face flange; body style inline flow - single screen; method of operation manua (handwheel)

**Material:**

Nickel alloy 400 screening

**Material Specification:**

Astm b148 c95800 assn standard 1st material response body

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A24000
