Overall Length:

0.8125 inches

Flange Thickness:

0.120 inches

End Application:

Ship

Flange Outside Diameter:

1.500 inches

Tubing Outside Diameter:

1.000 inches

Strength Rating:

Not rated

End Connection Type:

Sweat solder

Seat Type:

Straight face

Working Pressure And Service Type:

5500.0 pounds per square inch hydraulic oil err-100 err-100

Male End Feature:

Not included

Nut Retaining Flange:

Included

Product Name:

Tailpiece, female union

Special Features:

Material copper-nichol alloy

Material:

Copper and nickel copper alloy

Material:

Copper and nickel alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-q
