End Application:

F/a-18e/f

Criticality Code Justification:

Agav

Product Name:

(inavy)tube, elbow, aircraft

Special Features:

Elbow, tube-axial swage to flared, swivel nut, 909deg, inconel; tube size 0.500inches; threads 0.750-16-unjf-3b

Material:

Nickel alloy 625 elbow

Special Test Features:

Intended for use in the intermittent high temperature environment of the f/a-18e/f gas generator fire extinguishing system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0
