End Application:

F/a-18e/f

Criticality Code Justification:

Agav

Outside Diameter Tube Accommodated:

0.500 inches all ends

Product Name:

(inavy)union, tube, aircraft

Special Features:

90deg elbow tube with swage ends; intended for use in intermittent high temperatures of the f/a-18e/f gas generator fire extinguishing system; op temp -65deg f to +1500deg f

Material:

Nickel alloy 625 body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0
