**End Application:**

F/a-18e/f

**Criticality Code Justification:**

Agav

**Outside Diameter Tube Accommodated:**

0.500 inches all ends

**Product Name:**

(inavy)union, tube, aircraft

**Special Features:**

90deg elbow tube with swage ends; intended for use in intermittent high temperatures of the f/a-18e/f gas generator fire extinguishing system; op temp -65deg f to +1500deg f

**Material:**

Nickel alloy 625 body

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A080b0
