Furnished Items:

Locknut

End Application:

2320-01-304-2277 palletized loading truck

Product Name:

Emm power interface kit quick disconnect assembly

Special Features:

Max working pressure 3650 psi w/ burst pressure @ 14500 psi; for use w/ 08 (1/2") base size (177sq. Mm hydrostatic pushing area).

Functional Description:

Hydraulic connection as one of several simultaneous hydraulic, electrical and pneumatic line connections in a common base.

Reference Data And Literature:

Www.Fasterinc.Com or tm 9-2320-363-24p fig. 497

Supplementary Features:

3/4" unf male; rated flow @ 14gpm

Type/model Designation:

2p-3p series multifaster

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
