Overall Length:

5.300 inches

Overall Height:

2.560 inches

Overall Width:

3.985 inches

End Application:

C17a aircraft

Product Name:

Fitting, valve support-low pressure control

Special Features:

Max operating pressure: 350 psig, maximum operating temp. -200 degrees f., for the purpose of provisioning spares and maintenance, the -503 shall be used to replace the -1 or -501. The -503 is identical to the -501 except that it has no pilot holes and the rear spar mounting flange has increased width to allow for greater fastener edge distance at installation

Material:

Aluminum

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A23900
