Casehardening Indicator:

Casehardened

Overall Length:

0.792 inches

Metallic Hardness Rating:

Not rated

End Application:

Fixed wing aircraft, boeing model757

Flange Width:

Between 0.127 inches and 0.132 inches

Flange Outside Diameter:

Between 1.468 inches and 1.472 inches

Seat Angle In Deg:

Any acceptable

Sleeve Outside Diameter:

Between 1.317 inches and 1.320 inches

Hose/tube Outside Diameter For Which Designed:

1.250 inches

Special Features:

Subassembly is plumbing instl-sect. 12 r wing inbd hydr; refer to boeing i.P.C. Boe2337 29-11-51-17 no. 505

Material:

Steel, ams 5659

Material:

Steel comp xm-12

Surface Treatment:

Cadmium and chromate

Style Designator:

Flareless

Surface Treatment:

Cadmium, qq-p-416, type 2, class 3

Specification Data:

81205-bacs13bx manufacturers specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-j
