**End Application:**

Ecp g-342

**Inlet Connection Quantity:**

1

**Outlet Connection Quantity:**

6

**Inlet Valve:**

Not provided

**Inlet Connection Thread Size And Series/type Designator And Location:**

9/16-18 unf external

**Outlet Connection Thread Size And Series/type Designator And Location:**

7/16-20 unf internal

**Outlet Valve:**

Not provided

**Product Name:**

Manifold, air assist supply

**Special Features:**

1 inlet with male flare connection; 6 outlet with internal threads; assembly has inlet tee, 3 hose sections, 4 outlet tees; tag with test information

**Material:**

Steel, corrosion resisting

**Material:**

Stainless steel

**Special Test Features:**

Test to 300 psig per sae ams 2615e, class a

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T359-m
