Casehardening Indicator:

Not casehardened

Overall Length:

0.800 inches

End Application:

C-17a aircraft

Flange Width:

0.190 inches

Flange Inside Diameter:

Between 2.465 inches and 2.485 inches

Flange Outside Diameter:

3.280 inches

Sleeve Outside Diameter:

2.750 inches

Hose/tube Outside Diameter For Which Designed:

2.500 inches

Product Name:

Ferrule, swage, tube coupling-ms20756 flange

Material:

Aluminum alloy, qq-a-225/6, alloy 2024, t6

Material:

Aluminum alloy 2024

Surface Treatment:

Anodize or chromate

Style Designator:

Single flange

Supplementary Features:

Max. Operating pressure 125 psi; proof pressure 250 psi; burst pressuremin. At room temp. 375 psi; no of grooves 5

Surface Treatment:

Anodized, mil-a-8625, type 2, class 2 or oxide film, mil-c-5541

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T385-j
