Thread Direction:

Right-hand

Mounting Type:

Outlet connection side

Body Diameter:

2.000 inches

End Application:

Ship a/c condensor/heat exchanger

Bodylength:

6.600 inches

Filtering Element Quantity:

1

Criticality Code Justification:

Feat

Product Name:

Filter strainer

Special Features:

Weapon system essential; 316 series stainless steel; black epoxy coating; .1875 inch perforations, 13 per square inch; 1.25 inch npt internal threads

Material:

Any acceptable body

Surface Treatment:

Passivate body

Style Designator:

Sump type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
