End Application:

Moisture separators sil-brazing ends for low pressure air systems

Criticality Code Justification:

Feat

Nominallength:

1.750 inches

Product Name:

Nipple- .540 o.D. X .120 thk

Special Features:

Weapons system essential. Source of material: mf 98-31-214. Material is copper nickel.

Material:

Copper and nickel

Material Specification:

Mil-t-16420 military standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0

Mil-std (military Standard):

Mil-t-16420 spec.
