End Application:

F15a-e

Product Name:

Name on p/n is retainer half; drawing name is coupling assembling

Special Features:

O-ring size is 0.334; tube size 2.500; width 1.504; wt 0.197 lb.; operating pressure 125 psig; proof pressure 250 psig; burst pressure 375 psig

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A517x0
