End Application:
Equipment n tools
Accessory Components And Quantity:
Male quick disconnect self sealing 1; tube assembly 1; elbow 1; threaded swivel disconnect 1; o'rings 4
Criticality Code Justification:
Feat
Product Name:
Inlet line assembly
Special Features:
Critical technology, export control; assembly has quick disconnect end self sealing, 2nd end .562-18 unf 2a, tube assembly, nipples
elbow, and o'rings; 300 series stainless steel
Material:
Stainless steel
Special Test Features:
Hold 150 psi for 5 minutes
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
