Body Material:

Aluminum and steel, corrosion resisting

End Application:

Sa6 breathing air compressor

Inlet Connection Pipe Size:

4.000 inches

Outlet Connection Pipe Size:

4.000 inches

Float Material:

Aluminum

Valve Material:

Steel, corrosion resisting

Float Arm Material:

Steel, corrosion resisting

Inlet Connection Type And Quantity:

1 threaded internal tube

Special Features:

Third stage

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T359-a
