End Application:

Ship, strainer

Perforation Diameter:

0.062 inches

Perforation Quantity:

144.0 per square inch

End Connection Type:

Plain all ends

Filtering Media Design:

Perforated

Strainer Model Number For Which Designed:

Nuflo ng67 200

Material:

Nickel alloy

Material Specification:

Qq-n-281 federal specification 1st material response or astm b127 assn standard 1st material response

Style Designator:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A523h0
