Thread Direction:

Right-hand internal

Pipe Size For Which Designed:

1.000 inches

Maximum Operating Temp:

150.0 degrees fahrenheit

End Application:

Ship, valves

Connection Style:

Plain (optional end)

Maximum Operating Pressure:

400.0 pounds per square inch

Thread Size:

1.000 inches internal

Product Name:

Threaded cap

Special Features:

90/10 copper/nichol alloy

Material:

Copper cap and nickel alloy cap

Media For Which Designed:

Water-oil-gas

Style Designator:

Cap

Thread Series Designator:

Npt internal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
