Overall Length:

6.500 inches

Wrenching Facility Shape:

Hexagon

End Application:

NSN:-54-200-0889

Width Across Flats:

1.750 inches

Product Name:

Adapter, filter, breather

Special Features:

Remove all burrs and sharp edges material = stainless steel, hexagon type 303 astm a 582 cond a ams 5640 type i, or 316, astm a 276, cond a

Material:

Steel, ams 5640

Material:

Steel comp 303 or steel comp 303se or steel comp 303 plus x

Supplementary Features:

Finish: 5.4.1 of mil-std-171

Specification Data:

05047 - asme y14.M-1994 professional/industrial association standard and 96906 - mil-std-100g government standard

Departure From Cited Document:

Sae j 1926/2: 1.313-12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T385-l
