Thread Direction:

Right-hand

Mounting Type:

Outlet connection top

Body Length:

1.500 inches

Body Outside Diameter:

5.000 inches

End Application:

Lio/tc piping installation

Filtering Element Quantity:

0

Criticality Code Justification:

Feat

Product Name:

Lio bilge strainer assembly

Special Features:

Military critical, export control; body is rectangular, 1.5 by 3 by 5 inch; outlet connection h849-12-m tailpiece with h850n-12-nab-lw union nut on outlet tube (.75 inch o.D., .065 inch wall); .125 inch perforations in body

Material:

Nickel alloy body and copper alloy body

Material Specification:

Qq-n-281, monel, nichol copper alloy military specification single material response body

Style Designator:

Suction type blunt end

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

spec.
