End Application:

3805-66-148-7692 interim high mobility excavating equipment; mrap buffalo mk2a2

Fastening Device Type:

Hexagon socket head

Special Features:

Band padded to protect hose; effective diameter is 1.026 inches and effective diameter is 2.250 inches; called constant torque clamp

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12700
