End Application:

Air inflator

Screw Thread Diameter:

0.438 inches

Screw Thread Series Designator:

Unf

Design Type:

Single foot

Thread Location:

External

Shank Type:

Threaded

Special Deflator:

Not included

Holding Clip:

Not included

Product Name:

High pressure inflating connection

Special Features:

Attached to .305-23 inch valve steam threads; 15000psi rating; steel with copper sealing washer; torque to 75 in/lb

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T359-n
