End Application:
Air inflator
Screw Thread Diameter:
0.438 inches
Screw Thread Series Designator:
Unf
Design Type:
Single foot
Thread Location:
External
Shank Type:
Threaded
Special Deflator:
Not included
Holding Clip:
Not included
Product Name:
High pressure inflating connection
Special Features:
Attached to .305-23 inch valve steam threads; 15000psi rating; steel with copper sealing washer; torque to 75 in/lb
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T359-n
