Leg Length:

0.821 inches 1st end and 1.054 inches 1st end

Product Name:

Fitting assembly, elbow 90 degree, reducer and nonreducer, internal flare to flared tube

Material:

Aluminum alloy body

Surface Treatment:

Anodize body

Surface Treatment Specification:

Ams 2472 assn standard 1st treatment response body or mil-a-8625, type 11, class 2, dye blue, duplex seal military specification 2nd treatment response body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0

Mil-std (military Standard):

Mil-a-8625 spec.
