End Application:

Strainer, sediment

Perforation Diameter:

0.156 inches

Mesh Size:

20.0

Filtering Media Design:

Mesh

Product Name:

Screen, monel

Material:

Nickel alloy

Material Specification:

Qq-n-286 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A523h0
