Body Style:

Plain

Concentric Hole Diameter:

12.0 millimeters

Overall Length:

34.0 millimeters

Length From Bearing Surface Of Wrenching Feature To End Of First Diameter:

29.0 millimeters

Product Name:

Banjo bolt

Material:

Stainless steel

Material Specification:

Astma582, type 303 assn standard single material response

Surface Treatment Specification:

Mil-std-171 military standard single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A121a0

Mil-std (military Standard):

Mil-std-171 spec.
