Inside Diameter:

Between 3.188 inches and 3.500 inches

Overall Width:

0.750 inches

End Application:

2350-01-405-9886

Fastening Device Type:

Spring tension

Special Features:

Item is furnished with carbon stl washers (2), zinc plated; compression spring - music wire that is cad or zinc plated

Material:

Steel nut

Style Designator:

Band

Supplementary Features:

Refer to sae j1508 type sltb hose clamp for additional details

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A12700
