Overall Length:
7.5 inches
Overall Height:
6.750 inches
Product Name:
Vent cycle connection tc-b black
Special Features:
Function: the vent cycle connection is designed allow hrr chemicals to cycle from the chemical tote through the pumping system and back
into the totewith no exposure to moisture. This allows hrr to operate in a closed system while hrr pumps are checked and calibrated. This is
particularly critical during cold weather or times when the systems are running in preparation for operations.
Shelf Life:
N/a
Unit Of Measure:
