End Application:

Steam turbine engine

Filtering Element Quantity:

2

Product Name:

Duplex filter

Special Features:

Straining material is of stainless steel wire cloth; housin (60-40-18) is full ferritizing anneal ductile iron; degreasing solvent per mil-prf-680 shall be noncorrosive to bearings; fluid temperature maximum is 100 to 136 deg.Fahrenheit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000

Mil-std (military Standard):

Mil-prf-680 spec.
