End Application:

Fuels operational readiness capability equipmen (force)

Connection Type:

Unthreaded external pipe all ends

Inlet Location:

Right-hand side single inlet

Outside Diameter:

0.375 inches all ends

Product Name:

Union pipe

Special Features:

Part of control valve assembly

Media For Which Designed:

Fuel single response

Style Designator:

Plain

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A080b0
