Mesh Size:

50.0

Thread Size:

0.500 inches

Filtering Media Design:

Mesh single filtering media response

First Intake Connection Type:

Threaded external pipe side near top

Second Intake Connection Relationship To First Intake Connection:

Not identical

Second Intake Connection Type:

Threaded internal pipe side near top

Angle Between Connections:

180.0 degrees

Product Name:

Strainer

Media For Which Designed:

Water

Style Designator:

Diverted flow basket strainer w/threaded cover

Thread Series Designator:

Npsm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
