End Application:

Aircraft type a10a

Special Features:

Body matl hi-tensile bronze and trim corrosion resistant steel, flow pattern 4 way, 11.125 in.O/a lg, 4.125 in.O/a w, rated pressure 1500 psi designed for air service, max ambient temp 150 degrees f, solenoid operated, voltage dc 24.0, spring loaded in normal posn, 3 ports 0.375 in.Npt, 1 port 0.500 in.Npt, 2 port plugs furnished with valve; cognizant service: air force

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
