Directional Control Linear Valve - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4810-00-076-0983

End Application:
Aircraft type a10a
Special Features:
Body matl hi-tensile bronze and trim corrosion resistant steel, flow pattern 4 way, 11.125 in.O/a lg, 4.125 in.O/a w, rated pressure 1500 ps
designed for air service, max ambient temp 150 degrees f, solenoid operated, voltage dc 24.0, spring loaded in normal posn, 3 ports 0.375
in.Npt, 1 port 0.500 in.Npt, 2 port plugs furnished with valve; cognizant service: air force
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
