**End Application:**

Aircraft type f111

**Special Features:**

Body matl hi-tensile bronze and trim corrosion resistant steel, flow pattern 4 way 11.125 in.O/a lg, 4.125 in.O/a w, rated pressure 3000 psi designed for hydraulic oil service, max ambient temp 150 degrees f, 2.5 gpm rated flow, solenoid operated, voltage dc 24.0 spring loaded in normal posn, 3 ports 0.375 in.Npt, 1 port 0.500 in.Npt, 2 port plugs furnished w/valve; cognizant service: airforce

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A506h0
