Special Features:

Direct acting stype, 220 volts ac 50 cps, 25 psi maximum rated water and oil operating pressure at 212 degrees f max, brass body, nonmetallic composition seat seating surface, brass disk seating surface, brass stem, 1 orifice 0.125 in.Dia, thd female connections, 1/4-18 in.Npt rh, directional flow control

Reference Number Differentiating Characteristics:

As differentiated by the voltage rating

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A506h0
