Renewable Seat Ring Type:

Threaded

Valve Operation Method:

Electric motor

Flange Shape:

Round 1st end

Connection Type:

Flange 1st end

Outside Diameter:

6.125 inches 1st end

Face To Face Distance:

9.000 inches

Flange Face Design:

Plain 1st end

Phase:

Three

Frequency In Hertz:

60.0

Material:

Nickel alloy stem

Style Designator:

Straight through flanged ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
