Temperature Rating:

Between -65.0 degrees fahrenheit and 315.0 degrees fahrenheit

Pressure Rating:

Between 25.0 pounds per square inch and 140.0 pounds per square inch

Special Features:

Material: non-wicking nomex cloth, impregnated with flurosilicone elastomer code f

Material:

Plastic aramid and rubber fluorosilicone class fq

Media For Which Designed:

Air or fuel, jet

Supplementary Features:

APPL-TO-P/N-AV19

Fsc Application Data:

Valve, regulator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A540b0
