Aperture Diameter:

0.125 inches

Flow Control Device:

Needle

Flow Control Device Normal Operation Position:

Open

Connection Style:

Socket (tube) all ends

Valve Operation Method:

Automatic

Connection Type:

Unthreaded internal tube all ends

Mounting Position:

Horizontal

Outside Diameter Tube Accommodated:

0.250 inches all ends

Material:

Nickel alloy

Style Designator:

Angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A046b0
