Current Rating In Amps:

0.5

Valve Operation Method:

Solenoid

Voltage In Volts And Current Type:

110.0 ac

Pressure Class:

3000.0 pounds per square inch

Special Features:

Direct operated spool gives immediate flow change on solenoid actuation, remote electrical directional control, 3/8-18 nptf internal thded ports

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A502c0
