**End Application:**

2g-gtcp165-4

**Special Features:**

Drawing name valve outline, butterfly-shutoff, pneumatic, 4 inch dia.; normally spring loaded closed; ambient air temp -65 to +275 degrees feh; maximum operating current .98 amp at 28 vdc; operating volts 18 to 30 vdc; maximum operating inlet air pressure 60 psig

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A046b0
