End Application:

2g-gtcp165-4

Special Features:

Drawing name valve outline, butterfly-shutoff, pneumatic, 4 inch dia.; normally spring loaded closed; ambient air temp -65 to +275 degrees feh; maximum operating current .98 amp at 28 vdc; operating volts 18 to 30 vdc; maximum operating inlet air pressure 60 psig

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
