**General Description:**

Stainless steel, normally closed, 2.740 in. O/a h, 2.120 in. O/a w, 0.740 in. O/a dia, pressure ratings, operating 0-5000 psi, proof 7500 psi, burst 10000 psi, m65.0 degrees f to 300.0 degrees f operating temp, cartridge data, 1 amp maximum or 1 watt min for 5 minutes no fire, 2.77 amps min to each bridge all fire, recommended firing current 4.5 amps, bridgewire resistance 1.0 p or m 0.1 ohm, 2 megohms min. At 500 vdc insulation resistance, 1000 vacrms max. Dielectric strength, end fittings per ms33656-4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23900
