Aperture Diameter:

2.000 inches

Flow Control Device:

Disk or stem

Flow Control Device Normal Operation Position:

Closed

Bolt Hole Quantity:

6 1st end

Current Rating In Amps:

4.000

Valve Operation Method:

Automatic

Flange Shape:

Round with holes 1st end

Connection Type:

Flange 1st end

Mounting Position:

Vertical

Valve Size:

2.000 inches

Voltage In Volts And Current Type:

115.0 ac

Outside Diameter:

5.562 inches 1st end

Face To Face Distance:

7.000 inches

Flange Face Design:

Plain 1st end

Frequency In Hertz:

60.0

Material:

Nickel flow control device

Style Designator:

Straight through flanged ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A046b0
